

WAIALUA INTERMEDIATE AFTER-SCHOOL ALL-STARS AUGUST 2025

STEM PAPER PLANE COMPETITION

Students took on the challenge of designing paper airplanes to compete in three different categories: fastest, longest glide, and highest vertical flight. The competition gave students a chance to flex their engineering skills as they experimented with designs to create the best paper airplane in each category.

ARTS AND CRAFTS

Students loved creating their very own claymation characters during this arts and crafts activity. The students were shown examples of different types of claymation movies and were tasked with molding characters that looked like them. It was fun to see how creative students could be using only a few materials.

COOKING

Students brainstormed a list of dishes they wanted to try, then went to work in the kitchen. After a refresher on cooking safety, they whipped up tasty creations like banana lumpia, hamburger sliders, and pancakes.

STEM

Students teamed up for a fun engineering challenge: build the strongest structure using only a few sheets of paper and tape. The winning design amazed everyone by holding the weight of eight markers and a roll of tape. To celebrate their creativity and teamwork, the champions received a special treat.

MULTI-SPORTS

Soccer has been an After-School All-Stars favorite here at Waialua. The students love working together as a team, as they strategize to compete against each other.

TRIAL WEEK

During trial week students participated in a variety of ice breaker and team building activities. This opportunity allowed the students to work together and make new friends.

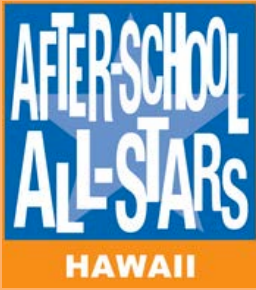

WAIALUA INTERMEDIATE AFTER-SCHOOL ALL-STARS AUGUST 2025

TRIAL WEEK

Teamwork was the highlight of the week. In this activity, students worked together to move a ball across the cafeteria using only sheets of paper. They quickly discovered that the challenge was not as easy as it looked, but their collaboration made all the difference.

STEM: KITE-MAKING

Students put their engineering skills to the test in a kite-making activity. Tasked with creating a plan and building a kite using minimal materials, their only requirement was that it had to lift off the ground for a few seconds. It was exciting to see their creative designs take flight.
